## DESCRIPTION

### Missing Elf (Double Bock)

Euro high alcohol lager. Brilliantly crystal clear. It's a golden honey color with little bubbles floating up. A light creamy head forms at first, then fades to small clumps of bubbles around. Starts with a light crisp lager like nose, with hints of honey and sweet malts. Digger deeper reveals the slightest hints of European malts, touches of alcohol sweetness, almost Belgian candy sugar, and quite a bit like a Belgian triple.

Naturally fermented.
